SDS Revision Date: 06/01/2015

1. Identification of the substance/mixture and of the company/ undertaking

1.1. Product identifier

Product IdentityStemlock Gas Bag AerosolAlternate NamesStemlock Gas Bag Aerosol

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended useSee Technical Data Sheet.Application MethodSee Technical Data Sheet.

1.3. Details of the supplier of the safety data sheet

Company Name LHB Industries

8833 Fleischer Place Berkeley, MO 63134

Emergency

24 hour Emergency Telephone No. (800) 633-8253 (PERS)

Customer Service: LHB Industries (314) 423-4333

2. Hazard identification of the product

2.1. Classification of the substance or mixture

Flam. Gas 1;H220 Extremely flammable gas.

Press. Gas;H280 Contains gas under pressure; may explode if heated.

2.2. Label elements

Using the Toxicity Data listed in section 11 and 12 the product is labeled as follows.

SDS Revision Date:

06/01/2015

Danger

H220 Extremely flammable gas.

H280 Contains gas under pressure; may explode if heated.

[Prevention]:

P210 Keep away from heat / sparks / open flames / hot surfaces - No smoking.

[Response]:

P377 Leaking gas fire - do not extinguish unless leak can be stopped safely.

P381 Eliminate all ignition sources if safe to do so.

[Storage]:

P410+403 Protect from sunlight. Store in a well ventilated place.

[Disposal]:

No GHS disposal statements

3. Composition/information on ingredients

This product contains the following substances that present a hazard within the meaning of the relevant State and Federal Hazardous Substances regulations.

Ingredient/Chemical Designations	Weight %	GHS Classification	Notes
Petroleum gases, liquefied, sweetened CAS Number: 0068476-86-8		Press. Gas;H280 Flam. Gas 1;H220	[1]
Propylene Glycol CAS Number: 0000057-55-6	10 - 25		[1]

^[1] Substance classified with a health or environmental hazard.

4. First aid measures

4.1. Description of first aid measures

^[2] Substance with a workplace exposure limit.

^[3] PBT-substance or vPvB-substance. *The full texts of the phrases are shown in Section 16.

SDS Revision Date: 06/01/2015

General In all cases of doubt, or when symptoms persist, seek medical attention.

Never give anything by mouth to an unconscious person.

Inhalation Remove to fresh air, keep patient warm and at rest. If breathing is irregular or

stopped, give artificial respiration. If unconscious place in the recovery position

and obtain immediate medical attention. Give nothing by mouth.

Eyes Irrigate copiously with clean water for at least 15 minutes, holding the eyelids

apart and seek medical attention.

Skin Remove contaminated clothing. Wash skin thoroughly with soap and water or use

a recognized skin cleanser.

Ingestion If swallowed obtain immediate medical attention. Keep at rest. Do NOT induce

vomiting.

4.2. Most important symptoms and effects, both acute and delayed

Overview ROUTES OF EXPOSURE: Exposure may be by INHALATION and/or SKIN or

EYE contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment. EFFECTS OF OVEREXPOSURE: Irritation of eyes, skin and upper respiratory

system.

SIGNS AND SYMPTOMS OF OVEREXPOSURE: Headache, dizziness, nausea, and loss of coordination are indications of excessive exposure to vapors or spray mists. Redness and itching or burning sensation may indicate eye or excessive

skin exposure

MEDICAL CONDITIONS AGRAVATED BY EXPOSURE: Pre-existing respiratory,

skin, eye, liver, kidney and lymphatic disorders.

See section 2 for further details.

5. Fire-fighting measures

5.1. Extinguishing media

Carbon Dioxide, Dry Chemicals, Foam

5.2. Special hazards arising from the substance or mixture

Hazardous decomposition: Oxides of carbon and sulfur, formaldehyde gas and thiols.

Keep away from heat / sparks / open flames / hot surfaces - No smoking.

5.3. Advice for fire-fighters

SPECIAL EXPOSURE HAZARDS: Do not expose to temperatures over 120°F. Keep away from heat, sparks and flame. Containers may explode when exposed to extreme heat. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

SPECIAL PROTECTIVE EQUIPMENT: Water may be used to keep fire-exposed containers cool. Fire fighters should wear full protective clothing, including self-contained breathing equipment.

SDS Revision Date:

06/01/2015

ERG Guide No. --

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Read entire label before using and follow all label directions.

6.2. Environmental precautions

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

6.3. Methods and material for containment and cleaning up

Eliminate all sources of ignition. Provide good ventilation and minimize the breathing of vapors and avoid skin contact. Dike spill area and absorb the spilled liquid with earth, sawdust or a commercially available absorbent. Shovel spent absorbent into recovery or salvage drums for appropriate disposal. CATEGORY - NFPA 30B Level 1 Aerosol

Do not store where temperatures may exceed 120°F (48.9°C).

7. Handling and storage

7.1. Precautions for safe handling

Store in accordance with the National Fire Protection Association's publication NFPA 30, Flammable and Combustible Liquids Code. 29 CFR 1910.106 applies to the handling, storage, and use of flammable and combustible liquids.

See section 2 for further details. - [Prevention]:

7.2. Conditions for safe storage, including any incompatibilities

Keep out of reach of children. Do not take internally. Do not consume food, drink or smoke while handling this product.

Keep from freezing. Avoid storage in high temperatures or near open flame. Store in dry cool place.

Incompatible materials: Strong oxidizers and alkali metals.

See section 2 for further details. - [Storage]:

7.3. Specific end use(s)

No data available.

8. Exposure controls and personal protection

SDS Revision Date: 06/01/2015

8.1. Control parameters

Exposure

CAS No.	Ingredient	Source	Value
0000057-55-6	Propylene Glycol	OSHA	No Established Limit
		ACGIH	TWA(Aerosol): 10 mg/m3
		NIOSH	No Established Limit
		Supplier	10 mg/m3 TWA (listed as AIHA WEEL)
0068476-86-8	Petroleum gases, liquefied, sweetened	OSHA	No Established Limit
		ACGIH	No Established Limit
		NIOSH	No Established Limit
		Supplier	No Established Limit

Carcinogen Data

CAS No.	Ingredient	Source	Value		
0000057-55-6	Propylene Glycol	OSHA Select Carcinogen: No			
		NTP	Known: No; Suspected: No		
		IARC	Group 1: No; Group 2a: No; Group 2b: No; Group 3: No; Group 4: No;		
0068476-86-8 Petroleum gases, liquefied, sweetened		OSHA	Select Carcinogen: No		
Sweeterieu	NTP	Known: No; Suspected: No			
		IARC	Group 1: No; Group 2a: No; Group 2b: No; Group 3: No; Group 4: No;		

8.2. Exposure controls

Respiratory Wear an appropriate (Type TC-23C-49) properly fitted half-mask or a full

facepiece NIOSH approved cartridge respirator during and after coating application unless air monitoring demonstrates vapor/mist levels are below the

permissible limits. Follow respirator manufacturer's directions for use.

Eyes Use chemical safety glasses, goggles, and face shields for eye protection.

Skin Use impermeable aprons and protective clothing whenever possible to prevent

skin contact. The use of head caps is strongly recommended. Wear chemical

resistant (Nitrile or Viton) gloves to prevent skin contact.

Engineering Controls Provide adequate ventilation. Where reasonably practicable this should be

achieved by the use of local exhaust ventilation and good general extraction. If these are not sufficient to maintain concentrations of particulates and any vapor below occupational exposure limits suitable respiratory protection must be worn.

SDS Revision Date: 06/01/2015

Other Work Practices Avoid contact with skin and clothing. Wear suitable protective clothing. Body

garments used should be based upon the task being performed (e.g., lab coat, chemical resistant protective suit, sleevelets, synthetic apron, gauntlets) to avoid exposed skin surfaces. Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Use good personal hygiene practices. Wash hands before eating, drinking, smoking or using toilet. Promptly remove soiled clothing and wash thoroughly before reuse.

See section 2 for further details. - [Prevention]:

9. Physical and chemical properties

Appearance Colorless Liquid/Gas

Odor None

Odor threshold Not Measured

pH 10

Melting point / freezing pointNot MeasuredInitial boiling point and boiling rangeNot Measured

Flash Point -156 F (propellant only)
Evaporation rate (Ether = 1) Slower than ether

Flammability (solid, gas) Gas

Upper/lower flammability or explosive limits Lower Explosive Limit: 1.8

Upper Explosive Limit: 9.5

Vapor pressure (Pa)Not MeasuredVapor Density>1 (AIR=1)Specific GravityNot Measured

Solubility in Water Soluble

Partition coefficient n-octanol/water (Log Kow) Not Measured
Auto-ignition temperature Not Measured
Decomposition temperature Not Measured
Viscosity (cSt) Not Measured

9.2. Other information

No other relevant information.

10. Stability and reactivity

SDS Revision Date:

06/01/2015

10.1. Reactivity

Hazardous Polymerization will not occur.

10.2. Chemical stability

Stable under normal circumstances.

10.3. Possibility of hazardous reactions

No data available.

10.4. Conditions to avoid

Temperatures above 160 C

10.5. Incompatible materials

Strong oxidizers and alkali metals.

10.6. Hazardous decomposition products

Oxides of carbon and sulfur, formaldehyde gas and thiols.

11. Toxicological information

Acute toxicity

Prolonged overexposure to solvent ingredients in Section 2 may cause adverse effects of the liver, urinary and blood forming systems.

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

Professions associated with prolonged exposures to organic solvents, such as painters, may show an increased risk of hematological (blood) related cancers.

Ingredient	Oral LD50, mg/kg	Skin LD50, mg/kg	Inhalation Vapor LD50, mg/L/4hr	Inhalation Dust/Mist LD50, mg/L/4hr	Inhalation Gas LD50, ppm
